TECHNICAL SKILLS

- **Backend Development:** ASP.NET Core Web API, C#, REST APIs, Clean Architecture, Authentication & Authorization, JWT, Dependency Injection, SOLID Principles (SRP), Repository Pattern, Entity Framework Core, Dapper, Logging
- **Frontend Development:** React.js, TypeScript, HTML, CSS, Yup Validation, Flutter (Bloc)
- **Databases:** SQL, Firebase, SQLite, SQL Queries, Database Design, Views, Indexing, Query Optimization, Transactions
- **Cloud & Infrastructure:** Microsoft Azure (Basic), Application Hosting, SSH, Virtual Machines
- **Tools & Practices:** Git, GitHub, Postman, Visual Studio, Agile Development
- **Programming Languages:** C#, SQL, JavaScript, TypeScript

PROFESSIONAL EXPERIENCE

Tutor

Jun 2024 – Present

Itahari International College

Itahari, Nepal

- Teaching programming fundamentals, object-oriented design, and core computer science concepts
- Guiding students in Java Servlets, Python programming, IoT, and Cloud Computing
- Supporting learners in building strong problem-solving and software development foundations
- Continuously learning C#, .NET, and modern backend development practices alongside teaching responsibilities

KEY PROJECTS

E-Commerce Application (OnGoing) : <https://github.com/ishankfl/Ecommerce-Multivendor>

Technologies: ASP.NET Core Web API (Clean Architecture), C#, Entity Framework Core, React.js, TypeScript, Yup Validation

- Designed and developed a scalable e-commerce system using **Clean Architecture** and SOLID principles
- Implemented secure authentication and authorization with role-based access control
- Built robust database layer using SQL Server with optimized queries, indexing, and relational design
- Applied transactions to ensure ACID compliance in order processing and payment workflows
- Used Dapper for performance-critical queries and Entity Framework Core for ORM-based operations
- Implemented repository pattern and dependency injection for maintainable architecture
- Developed frontend with React and TypeScript with Yup-based form validation

PailaTech News Platform

pailatechnews.online

Technologies: Node.js, React.js, Yup Validation

- Built a full-stack news publishing platform with admin-driven content management
- Implemented CRUD operations for news posts with structured API design
- Added view count tracking system for analytics and engagement measurement
- Developed advertisement management system with add/remove functionality
- Designed responsive frontend using React with form validation using Yup

Inventory Management System: <https://github.com/ishankfl/Inventory-Mgmt-System/>

Technologies: React, ASP.NET Core Web API, Entity Framework Core, SQL Server

- Built a multi-role inventory system with secure authentication and authorization
- Designed database schema with optimized relational structure and query performance
- Implemented stock tracking, product lifecycle management, and role-based workflows
- Applied indexing and optimized SQL queries for performance improvement
- Developed secure backend APIs following REST principles

Book Shop – E-commerce Platform: <https://github.com/ishankfl/Ecommerce-Book/>

Technologies: ASP.NET Core Web API (Clean Architecture), Entity Framework Core, React.js, Firebase

- Developed a modular e-commerce platform using Clean Architecture
- Implemented cart, order history, and user management features
- Designed scalable backend with separation of concerns and repository pattern
- Integrated Firebase for storage and real-time features

Bislerium Blog Hub:

Technologies: ASP.NET Core Web API, Entity Framework Core, Firebase Storage

- Built a blog platform with structured content management system
- Implemented media upload and storage integration
- Designed backend architecture following SOLID principles and SRP

EDUCATION

BSc (Hons) Computing

Nov 2021 – Dec 2024

Itahari International College (Affiliated with London Metropolitan University)

Itahari, Nepal

AWARDS & ACHIEVEMENTS

- AAA Scholarship (Academic Excellence Award – Year 1, Year 2, Year 3)
- Nearly 100% college fee scholarship based on academic performance
- Top 10% Honor (Consistent academic performance across all years)

HACKATHONS & TECHNICAL SHOWCASES

- ACES TechFest Hackathon 2.0 – Accessibility-focused computing solutions
- FUTURAMA National Showcase – Large-scale collaborative tech presentation
- Food Loss Prevention Hackathon – Supply chain optimization and waste reduction systems

CERTIFICATIONS

- [AWS Academy: Cloud Foundations](#)
- [LinkedIn Learning: Git & GitHub, SQL Database Programming](#)
